

Symbiotics and LuxFLAG collaborate on MIV information

Geneva, Switzerland and Luxembourg, April 9, 2009 – **Symbiotics and LuxFLAG announce their collaboration on providing information on Microfinance Investment Vehicles (MIV). This collaboration materializes in the publication of a new reference webpage on LuxFLAG accredited MIVs.**

LuxFLAG is the Luxembourg Fund Labelling Agency that aims to promote the raising of capital for microfinance by awarding a recognizable Label to eligible Microfinance Investment Vehicles. The LuxFLAG Label is a quality label confirming that a fund is predominantly invested in microfinance and meets an international standard recognized by experts in the field. Symbiotics is a leading investment advisor and information service provider for the microfinance industry. By subscribing to the Symbiotics Data Feed Service, LuxFLAG will benefit from continuously updated data gathered by Symbiotics' analysts.

Simultaneously, Symbiotics will benefit from a new distribution channel that will contribute to increase market transparency and provide investors and users with unique information.
